

# Practice Practical III

- Due No due date
- Points 33
- Questions 22
- Time Limit 50 Minutes
- Allowed Attempts 3

## Instructions

This is only a practice practical and is not intended to replace studying the individual sections of the lab. Use it solely to test your knowledge. You will not be graded for this practice practical. Click the text box to type your response. You have 50 minutes to complete this practice exam and 3 attempts in total.

### Remember:

- Always write the COMPLETE NAME of the muscle. Do not use short forms or half names.

Correct:

- Biceps brachii
- 

- Action must be written completely. Never write only one word.

Correct:

- Flexion of the forearm

### What if you don't remember the whole name or action?

If you don't remember the full answer:

**Do NOT leave it blank.**

Write whatever correct part you remember.
